**SERVING AS A SECOND** kitchen for a home in a beachside suburb, this design brief envisaged a sophisticated but casual lounge-style area. Michael Kilkeary, partner and design principal at Cadence & Co, wanted a rich textural feel that referenced the raw natural palette of the beach and landscape beyond. He chose a material palette deep in tone as a counterpoint to the extreme brightness of the sunlight and aimed to imbue the space with a sense of refuge. "This is a kitchen designed for entertaining and the capacity of these fridges allow for easy catering," he says. *What luxury items did you choose for this kitchen regardless of budget?* "Magnesia quartzite benchtops with a leather finish," says Michael. "The way the light catches the surface suggests the texture of sand as the waves recede. Also, the half-round oak dowel wall cladding, hand-stained by Nu Space Joinery, for its richness within the space and its casual luxe. The curved profile and waxed finish catch the light beautifully." [cadenceandco.com.au](http://cadenceandco.com.au)
